

**PLANT-BASED GOODNESS FOR YOU
AND OUR EARTH**

March 16, 2020

Dear Valued Customers of muun chi -

In this time of uncertainty and unfortunate interruptions of regular routines, I am writing to assure you that muun chi will continue to be there for you.

We know that many of you rely on muun chi products to maintain an active and healthy life and to strengthen your immune system. We have temporarily suspended the returning of jars during this precautionary period, but ask that you not throw out your jars. I will be happy to hold onto them if you prefer. I will be using new jars each time during these times, but hope to return to the wonderful world of re-using containers for the health of our Earth, once we find ourselves in a safer place.

We are committed to supporting your health and don't foresee any difficulties in continuing to produce the beverages and snacks that you favor. In fact, we are just beginning a relationship with a second organic juicer that will increase the volume of ingredients for our organic upcycled prebiotic snacks.

The addition is timely for my newest offering - muun chi Bites. These are crackers that feed the healthy bacteria in your gut. They are made from organic upcycled almond/cashew pulp and superseeds that have been sprouted in spring water. Like most of our snacks, muun chi Bites are dehydrated, not cooked, to maximize dietary fiber and nutritional content. Every Bite is good for you and our Earth!

Please let us know if you have any special needs. In the meantime, we send wishes of good health to you and your families. I hope this letter finds you well. Thank you for joining us in this effort to stay safe and healthy.

With gratitude,
mama muun manette
